1. About us

PT. PLATINUM JAYA LOGISTIC was established with the support of young workers who are experts from various disciplines involved in forwarding and expeditions that provide truck services, Custom Clearance, Project Cargo, Export, Import by sea and air.

Along with the development of Indonesia's development and efforts to improve the human resources (HR) toward the era of globalization and free trade, which has become the trend in the business world, then we established the company by using a strong infrastructure, good preparation, well organized and coordinated, that become the basis of its establishment, to provide the best quality and service
